KARNATAKA BACKWARD CLASSES COMMISSION

Subject:— **Socio-economic survey of the Castes/Communities in Karnataka State—Instructions for filling the Schedules.**

Introduction :

The Karnataka Backward Classes Commission constituted under the Commissions of Inquiry Act, 1952, has to conduct the Socio-economic Sample Survey of all the castes/communities in the State to determine their socio-economic conditions. The Commission has designed schedules 1 to 5 for the said purpose.

Sample Design :

At least one village in each Taluk, one division or ward in each Town Municipality, two divisions in each City Municipality and 4 or 5 divisions in the City Municipal Corporations throughout the State are selected in consultation with the District Social Welfare Officers for the purpose. All the households within the boundary of the selected village including hamlets if any/and 200 households belonging to all castes/communities in each division or ward have to be covered in the survey.

Duties of the Investigators and Enumerators :

The Investigators/Enumerators appointed for the purpose of enumeration are to canvass the Schedules without any bias. They have to ask the questions as they are worded and replies from the respondents have to be entered without introducing any of their personal knowledge into the answers. They should not lead the respondents to any kind of response from them. The information is to be collected from the head of the household or some responsible person in the household who is having full knowledge of the details required.

The Investigators have to study the Schedules and Instructions carefully before starting enumeration. They should make use of the Electoral rolls, Panchayat records, Revenue records etc. for collection of information. They should take the assistance of the local officials for collection of information on different items.

Instructions for filling the Schedules are given in brief, since most of the questions are self-explanatory. Wherever any specific instructions are given, the Investigators should note them carefully and see that the information on each of those items is properly recorded.

The Schedules 1 to 5 are designed for different purposes :

Schedule 1	:	List of Households
Schedule 2	:	Household Schedule
Schedule 3	:	Village/Block Schedule
Schedule 4	:	Taluk Schedule
Schedule 5	:	District Schedule

SCHEDULE 1

I. Identification Particulars

Self-explanatory.

II. List of Households

All the households within the boundary of the selected village (including hamlets) Town/Division or Ward should be listed chronologically.

The Enumerators on their first visit to the village/division or ward should find out whether any house numbers/household numbers are given to all the houses and households by the Village Panchayat or Census organisation or Municipality etc. If that is available they should start listing them from the first house/household number and continuously list all the households according to the numbers already given. In cases where some new houses have been constructed separate numbers should be given to them, and listed. In case where some houses have been demolished, an indication to that effect should be made in the list.

In cases where no house/household numbers are given in the Village/Town, then the Investigator should give house/household numbers himself with a chalk-piece. The numbers should be given starting from the house in the South-West corner in a clockwise direction. While giving numbers all houses and households are to be given numbers chronologically street-wise. Then the listing should be started.

It is important that all the houses and households are listed without omission. It is generally known that some houses will be located in farms or away from the main village, like hamlets, etc. These households should also be covered under the survey.

Column 1: *House number*.—A house is a structure or part of a structure inhabited or vacant or a dwelling or a shop, shop-*cum*-dwelling or a place of business, workshop, school, hostel etc. The house number of each is to be entered under this column.

Column 2: *House-hold number*.—A "household" is the entire group of persons who live together in the same house and usually take their meals from a common mess. Where a house or a building is occupied by more than one household, each household will be differentiated by affixing 1, 2, 3 .... in the denominator and the house number in the numerator. For example, if the house number is 2 and is occupied by two households, the household Nos. in Column 2 will be 2/1 and 2/2. When the house is vacant or non-residential, a dash (—) will be entered in this column.

Column 3: *Name of the head of the Household*.—The head of the household is a person who is reported as such by the household. The name of the head of each household is to be entered here. Enter one name in one line corresponding to each household. In the case of a house where no one is living, mention whether it is a temple or a shop or a school or a Panchayat ghar and so on.

Column 4: *Religion*.—The Religion of the head of the household entered in Col. 3, is to be recorded. The religions may be Hindu, Muslim, Christian, Jain, Buddhist, Sikh, Zorostrian.

Column 5 : Caste/Community.—The caste/community of the head of the household is to be recorded in this column. The caste of the person is to be carefully ascertained and entered. However, the Investigator is to record the caste and sub-caste as given by the respondent.

Columns 6, 7 and 8 : Household members in the family.—Who are usual residents are to be counted and an entry is to be made of males, females and total. Here the Investigator should carefully ascertain the number of members of the household including children and the persons who are temporarily absent at the time of enumeration.

Column 9 : Purpose for which the house is used.—The use to which the house is put as recorded in Column 1 is to be entered here. For example, the house may be used for the purpose of dwelling, shop, temple, school, hospital, cattle-shed, hotel, rearing silk worms etc.

Column 10 : Household serial number for caste/community.—The serial number of the caste/community of the head of the household which is recorded in Column 5, is to be entered here.

After completing the listing of all houses and households in the selected Village/Division or Ward, separate serial numbers are to be given according to the different caste/community of the households listed in each village/division or ward separately. An illustration is given below.

Note :—While listing all the households, more than one Form of Schedule 1 are required to be used, but the house number and household number should be entered serially in the second, and third Forms and separate page numbers should be given for all the Forms used for the Village/Division or Ward on the right top corner of the Forms, and all should be tagged into one set.

After completing the listing of all the households in each Village/Division or Ward, an abstract should be prepared giving the following particulars.

1. Name of the Village/Town Division or Ward
2. Number of houses listed

3. Number of households listed
4. Number of houses demolished
5. Number of non-dwelling houses
6. Number of households belonging to each caste/community

Signature of the Investigator.

SCHEDULE 2

Household Schedule

This Schedule is for entering information of each HOUSE-HOLD listed in the Schedule I. One Form for each household should be used. The information should be collected from the head of the household or any other adult member of the family.

I. IDENTIFICATION PARTICULARS

Self-explanatory.

II. PARTICULARS OF INDIVIDUAL MEMBERS OF THE HOUSEHOLD

Here, all the members of the family irrespective of whether they are present or absent at the time of enumeration are to be listed. Particular care should be taken to include the children and the members of the family who are absent temporarily. In this, space is provided for entering the details of 6 persons in the family. If any family consists of more than 6 persons, additional sheets may be used to enter the particulars of the remaining persons with an indication for having used sheets by giving the page number for each sheet used.
